Addendum 1

June 17, 2010

PON-09-607

GRANT SOLICITATION APPLICATION PACKAGE

Alternative and Renewable Fuel and Vehicle Technology Program

Subject Area: California Ethanol Producer Incentive Program

The purpose of this addendum is to correct references to the Air Resource Board and their instructions on form use. Please see the attached instructions for details.

Using this form:

The form contains two sections. The "Company Profile" is used for submitting information about the parent company of the biofuel facilities and the principal contact person responsible for the information submitted.

The "Facility Registration Information" is used for submitting information for the determination of a carbon intensity value and physical pathway. If more than one facility is operated under a single corporate/company ownership, copy the worksheet as a separate tab (see instructions below) and enter the information for each facility. In addition, each production process that yields a unique carbon intensity (CI) value must be entered on a separate worksheet as a separate tab. Such production processes include, but are not limited to, feedstock type or origin, type of energy used in processing, and co-products. For example, if your facility produces both wet and dry DGS as co-products, create 2 separate worksheets (tabs) with 2 different CI values for the ethanol production with wet DGS, and dry DGS.

Submitting the form:

Submittal of the Biofuel Producer Registration Form consists of **2 parts**:

~~1) Email Submittal: The completed electronic registration form and all of the supporting documents should~~

~~be submitted as attachments of a single email to LCFSRTAdmin@arb.ca.gov.; AND~~

~~2) 1) Submittal of a hardcopy of each page of the form, including ORIGINAL SIGNATURE (not a photocopy of the signature)~~

~~with all the attachments must be mailed to ARB the Energy Commission.~~

~~Please note that this registration form is a workbook containing multiple worksheets.~~

Please submit all information for multiple facilities in a single workbook (a combined Excel file). DO NOT submit facility worksheets separately. Save the Excel workbook file using the company name and current

date, such as "companyname_mmddyyyy".

INFORMATION FOR EACH FACILITY AND EACH FACILITY PRODUCTION PROCESS THAT YIELDS A UNIQUE

CARBON INTENSITY (CI) VALUE MUST BE ENTERED ON A SEPARATE WORKSHEET IN A SINGLE

Legal Responsibility:-

I, _____, as Primary Contact Person with Signatory Authority, am submitting this form on behalf of _____ (Company Name), with the understanding that this information will be relied upon by our customers and used in their reporting to the Air Resources Board for purposes of compliance with the Low Carbon Fuels Standard (LCFS) regulation and that the following facility information will be posted on the LCFS website.

Facility Name, Facility Address, Facility ID Number, Carbon Intensity (CI) values, and Physical Pathway codes specific to my facility. By submitting this form, _____ (Company Name) accepts responsibility for the information herein provided to the Air Resources Board.

-

Furthermore, by submitting this form, I understand that I am bound by, and authenticate this record, and attest to the statements contained within. I also understand that submitting or attesting to false statements may constitute a serious crime, punishable under the California Penal Code, or other criminal offenses punishable under state, municipal, or federal law.

I certify that information supplied herein is correct and that I have the authority by the company identified in Section 1 to submit this document.
